

THE DAILY CONSTITUTION

The Largest City, County and State Circulation.

DEFIES REPUTATION.

To the White House.—A full report of the contents of the Constitution is addressed to the President.

To Congressmen.—We do not read many more important documents than the Constitution.

To the Presidents.—The Constitution is addressed to the Presidents.

To the public.—The Constitution is addressed to the public.

We cannot forbear either to return or pre-

serve.

General Travelling Agents:

T. M. ACTON and J. W. ANDERSON.

ATLANTA:

THURSDAY, MARCH 19, 1874.

Editor's Note.

The population of France decreased one per cent last year.

Flora Temple is still alive and in good health. She is 39 years old.

Dr. Livingston's remains are to be transported from Africa to England at public expense.

There are four ex-Lord Chancellors in England—Lord St. Leonards, Chelmsford, Borthwick and Selborne. Each draws a pension of £3,000.

Miss Nellie Grant's Sartorius owns a farm in Wisconsin, which he tillied until the death of his brother made him heir to an English estate.

The Boundary News has left for Europe on the 13th. It is not known who will entertain him in his absence.

A biography of 400 pages has already been written of the Prince Imperial, 50 pages of which are devoted to his change from long to short clothes.

Farmer McCutcheon, late Radical candidate for Governor of New Hampshire, will now proceed to comb the hayseed out of his hair, and attend to his spring planting.

The assessed valuation of the real estate on the four thousand acres of Manhattan Island is equal to that spread over the remaining fifty-two million acres of the State.

At a late dinner in Washington of journalists, the next presidency was canvassed, and the more prominent candidates whose nomination seemed probable were Butler, Blaine and B. H. the three B's.

Mrs. Alice Mason Sumner, the divorced wife of a late Senator Sumner, only a few days ago, having been positioned by the Senate president of Massachusetts for leave to marry again. A higher court has decided the matter.

Now all the lawyers who are to be ruled by cheap Chinese labor—hasten, if a Celestial sue ends in his little game out of Truckee, Nevada. He is a native of Blackstone, and probably won't hit a gavel.

Nearly all the distinguished men who took part in the violent political contests of 1850-51, twenty five years ago, are now dead—Clay, Webster, Calhoun, Cass, Buchanan, Douglass, Benton, Fillmore, Chase, Clayton, Corwin, Bell, Everett and Dickinson.

The last English files received in New York speak of the abandonment of the whisky war. There is no doubt that the movement is one which will attract the attention of the whole civilized world. Nothing that America has yet done has excited the interest which this curious crusade is likely to excite.

Miss Horace, daughter of the Surgeon General of the Army; Miss Cooke, the daughter of Dr. Cook; the Misses Boree, nieces of the late Secretary of the Navy, and Mrs. Drexel of Philadelphia, are the five ladies who are said to have been chosen as Nellie Grant's bridesmaids.

The young ladies of Alton, Illinois, have organized a secret society, one of their strictest laws being that not one of its members shall go to any young man who drinks, smokes, chews, or uses any unprofane language, or drives fast horses.

The young ladies up to their rules, they will be the noblest set of girls in America.

A Chicago parson, who is also a school teacher, handed a problem to his class in mathematics the other day. The first boy took it, looked at it awhile, and said, "I can't do it." The second boy said, "I can't do it." The third boy stammered and drawled out, "I can't make it." "Very good, boys," said the parson, "we will proceed to cut for a new deal;" and, with that remark, the leather strap danced like lightning over the shoulders of those depraved young mathematicians.

The Springfield Republican thinks of the Saxon contractors that the "whole trans-Atlantic casts the darkest shadow over the administration of the United States Treasury that ever rested upon that office, or, perhaps, upon any cabinet office."

There is a Danbury legend to the effect that a party desiring to transact some private business with another, was invited to step into a neighboring store. "But we will be disturbed there," said the first party. "Oh, no," said the other, "they don't advertise."

The North Carolina Volcano.

The people of McDowell county, in western North Carolina, are anxious, asking, Have we a volcano among us? They don't ask, like some foolish communities, whether we have a Bourbon among us? They have lost all interest in that question—even in "Old Bourbon."

"E'en though we're gone," say on the track to Atlanta. Part of the track being under water, trains to Eufaula will not run for a day or two. All the trains on the Montgomery & Louisville railroad have been stopped by reason of washes on the roadbed, and damage to tracks.

4. That the proceedings be published in the papers of Athens, Atlanta and Augusta.

IN MEMORIAM.

Reared as he has been from boyhood under the eyes of many of them, the members of the Faculty of the University of Georgia have voted to appropriate a chair of Prof. F. A. Lippencomb with pecuniary growing interest, and have expressed in his death much sorrowful and irreparable loss. He was a student of the University under our charge for several years, during which he endeared himself to all below students and others, by his amiable manners, general feelings and honorable principles. After graduating with the highest honors of the institution he visited Europe where he remained two years, studying to complete his education. After returning home, he was appointed Adjunct Professor of Ancient Languages and the Latin Master of his boyhood. In the summer of 1879 he transferred to the chair of Rhetoric and Belles Letters. In both of these responsible positions Prof. Lippencomb acquitted himself with great credit. In the last attained almost immediately unsolicited and conspicuous success, winning the admiration of his pupils and the cordial respect of his brother professors. His easy, amiable and fascinating manners particularly fitted him for the discharge of his duties. The chair he occupied, while his tireless industry around the desk, his untiring enthusiasm and activity in the ranks of his students. It is indeed a sorrowful and melancholy reflection that his untimely and premature end was hastened by the unwillingness with which he devoted himself to his professional duties. He may truly be said to have almost died at the midst of his toll, for up to the moment of his fatal illness was engaged, day and night, with the laborious duties incident to the varied responsibilities of his chair, and discontinued his work with his health and consequent death.

The rumbling noises have been heard daily for two months, and houses have been jarred for miles in every direction. The terrible noise from the bowels of the uneasy mountain are heard at Marion and Old Fort, a distance of eighteen or twenty miles. The unsettling of table ware, the hasty melting of snow as fast as it falls, and the long continued subterranean thunder has thrown the country adjacent to Bald Mountain into deep consternation. The terrible thunders and groans of the earth and the pangs of pain and torment have been going on near the trembling mountain, and the distresses of "Uncle" are in a state of the deepest and most fervid penitence.

The rumbling noises have been heard daily for two months, and houses have been jarred for miles in every direction. The terrible noise from the bowels of the uneasy mountain are heard at Marion and Old Fort, a distance of eighteen or twenty miles. The unsettling of table ware, the hasty melting of snow as fast as it falls, and the long continued subterranean thunder has thrown the country adjacent to Bald Mountain into deep consternation. The terrible thunders and groans of the earth and the pangs of pain and torment have been going on near the trembling mountain, and the distresses of "Uncle" are in a state of the deepest and most fervid penitence.

The Albany Argus shows from the town returns in New York State that the Republicans will lose New Hampshire. Prophetic language! Simonis was confirmed—New Hampshire is lost; and upon whom but President Grant can the Republican party shoulder the chief responsibility for it?

The Albany Argus shows from the town returns in New York State that the Republicans will elect 500 supervisors in 1872, this year elect only 30; while the Democrats, who elected only 278, this year elect 380, leaving 18 to the Liberals and Independents.

The Chicago Tribune thinks that the most fitting mark of respect to the late Senator Sumner would be the passage of his famous battle-flag resolution, word for word, as it came from the brain which has now done with earthly thinking. This, it is fair to believe, would be a higher honor than eulogy and parades and all the pomp and pageantry of a solemn funeral."

Hon. Michael C. Kerr, of New Albany, and one of the most reliable and efficient representatives that Indiana ever had in Congress, has announced his intention of entering the field again as a candidate from the second district. At the last election, it will be remembered, he was placed upon the ticket for congressman at large and was defeated, Mr. Simeon K. Wolfe, the present member, and a very worth gentleman, being the successful candidate in Mr. Kerr's old district.

Mr. Beck, of Kentucky, has a keen eye for figures. His arrangement of the committee on appropriations in committee of the whole, last Thursday, was a piece of impudent chicanery which caused the chairman, Mr. Garfield, of Ohio to squirm. Mr. Beck charged that the estimate of expenditures for the year ending June 30, 1874, aggregated \$308,000,000, while Mr. Garfield's committee asked for \$319,000,000. A great deal of time was wasted in the endeavor of Mr. Garfield and his friends to explain away the discrepancy, but the effort signally failed.

W. H. WADDELL, Secretary.

Woman Suffrage.

The Rhode Island House of Representatives has passed a resolution submitting to the people a amendment to the State Constitution, authorizing woman suffrage. The vote stood 44 to 17. And the Iowa Senate has adopted a joint resolution of the House for a Constitutional Amendment giving women the right of suffrage, by a vote of 21 to 1. On the other hand the Michigan State Senate has refused to concur with the House in striking the word "male" from the new Constitution. England is not longer in clothing the women with suffrage. It is stated that the number of members returned to the Parliament in England who have voted or declared in favor of women's suffrage is 217; the gain by the removal of opponents is 102. The hostile majority is consequently reduced from 107 to 5. The list of those who have voted for the bill includes Mr. Dillan and several members of the new Cabinet.

The Governor of Florida Dead.

The telegraph tells us that Governor Hart, of Florida, died yesterday after a lingering illness. We have no particulars at hand of his life. But he was a Radical, and was the Radical Governor of a Southern State upon a black majority has not hitherto been a commission of honor.

Florida is cursed with taxes like every other State ruled by carpet-bag governments. The writer owns some four hundred acres of wild lands near St. Augustine, not saleable for four hundred dollars at present. Yet his taxes on the land are about four cents on the dollar, or three times the tax on Atlanta city property. The tax five years ago was about one cent, and has each year grown until it is a grave question with owners of unimproved property whether it is not advisable to let the property be sold for taxes instead of continuing to pay with no immediate prospect of any relief.

Money and Trade.

Money is abundant at all the money centers. Last year, this time, it was worth, in New York, 7 per cent. gold and upwards; now it is a drat at 3 per cent. per annum.

The same story comes from Boston and Philadelphia. In the former city large balances of currency remain in idleness for lack of profitable employment, says the Traveller; and in the latter, borrowers, in the words of the Ledger, dictate their own terms as to rates. Substantially the same reports come from the great business centers of the West. Its abundance in Chicago and the lack of satisfactory investments are attested by the large supply for loan on mortgages, and even from New Orleans comes the stereotyped report, "money abundant." The cry for more currency sounds preposterous to the "blotted bondholders" who can not loan their balances.

This abundance of money at the business centers, says the commercial Bulletin, is not an indication of a healthful condition of the economy, but of a general stagnation, curtailment of mercantile operations, suspension of enterprise, uncertainty in the present, and hesitation as to the future. The spring trade thus far has been disappointing. The disappointment is the greater, because the Fall trade, which promised so fairly, and looked so healthful and cheering, was nipped in the bud by the money panic, and the business which was expected was not realized. But the country was everywhere reported to be bare of stocks of goods and merchandise, and the impression prevailed—among the jobbers particularly—that they would have a good Spring business—that the usual reaction would surely follow the season of depression. The result is eminently unsatisfactory. New York and Boston are both compelled to admit that trade is not in a flourishing condition. There is a deadlock, a stagnation, which is likely to continue.

Miss Horace, daughter of the Surgeon General of the Army; Miss Cooke, the daughter of Dr. Cook; the Misses Boree, nieces of the late Secretary of the Navy, and Mrs. Drexel of Philadelphia, are the five ladies who are said to have been chosen as Nellie Grant's bridesmaids.

The young ladies of Alton, Illinois, have organized a secret society, one of their strictest laws being that not one of its members shall go to any young man who drinks, smokes, chews, or uses any unprofane language, or drives fast horses.

The young ladies up to their rules, they will be the noblest set of girls in America.

A Chicago parson, who is also a school teacher, handed a problem to his class in mathematics the other day. The first boy took it, looked at it awhile, and said, "I can't do it." The second boy said, "I can't do it." The third boy stammered and drawled out, "I can't make it." "Very good, boys," said the parson, "we will proceed to cut for a new deal;" and, with that remark, the leather strap danced like lightning over the shoulders of those depraved young mathematicians.

The Springfield Republican thinks of the Saxon contractors that the "whole trans-Atlantic casts the darkest shadow over the administration of the United States Treasury that ever rested upon that office, or, perhaps, upon any cabinet office."

There is a Danbury legend to the effect that a party desiring to transact some private business with another, was invited to step into a neighboring store. "But we will be disturbed there," said the first party. "Oh, no," said the other, "they don't advertise."

The North Carolina Volcano.

The people of McDowell county, in western North Carolina, are anxious, asking, Have we a volcano among us? They don't ask, like some foolish communities, whether we have a Bourbon among us? They have lost all interest in that question—even in "Old Bourbon."

"E'en though we're gone," say on the track to Atlanta. Part of the track being under water, trains to Eufaula will not run for a day or two. All the trains on the Montgomery & Louisville railroad have been stopped by reason of washes on the roadbed, and damage to tracks.

INCENDIARY BURNING.

Mr. Ullman's House Burned in Rockdale County.

NO INSURANCE.

Covington Special to the Atlanta Constitution:

COVINGTON, Ga., March 18, 1874.

A fire occurred this morning in Rockdale county, which caused considerable commotion and alarm.

The above house of Mr. J. C. Lawler, at Euharlee Mills, in Rockdale county, was taken from Covington, was burned to the ground this morning, and the entire contents of the house were consumed.

THE LEAD.

The loss was fully one thousand seven hundred dollars, and was an entire loss, as neither the house nor the stock were saved.

The building belonged to Mr. James A. Kennedy and was also uninsured.

The fire was the work.

OF AN INCENDIARY,

and it is supposed that the house was first robbed of its contents and then set on fire.

Mr. A. L. Anderson
